

*Average Rainfall in the Island of St. Croix from 1852-1889 both years inclusive, stated in lines  
(8 lines = 1 inch, English measure).*

*The figures from the average of observations made at three stations, Christiansted's Fort, Frederiksted's Fort and King's Hill, but in the time from October, 1878 to October, 1882, both months inclusive, no observations were taken at King's Hill.*

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sep.	Oct.	Nov.	Dec.	Total
